Mocha/Chai

Knex

Bootstrap

Heroku/Vercel

Jira

## Summary

Aspiring junior-level software developer experienced in the PERN stack. Highly motivated self-starter with an eagerness to learn and grow to become a better developer. I love problem solving using technology.

## Projects

### Restaurant Reservation

- Built an App that is made for restaurants to use for taking and keeping track of reservations, along with their tables and past reservations
- Developed features including a dashboard, search by phone number, adding/deleting reservations, adding/deleting tables, assigning customers, and creating availabilities by date
- Tech stack:** JavaScript, HTML, CSS, ElephantSQL, Knex, Node, React, React Hooks, Vercel

### Flashcard App

- Designed an app that mimics studying with physical flashcards, but in a digital format
- Built functional buttons to create/add decks or cards as well as buttons to flip the cards to display information of the front or back; decks and cards can also be deleted at the user's discretion
- Tech stack:** JavaScript, HTML, CSS, React, React Hooks, React Router

### GrubDash

- Developed an App that replicates GrubHub by allowing users to see dishes with their descriptions and being able to add them to their cart
- Built APIs with complex validation using middleware packages, receiving requests through routes, using RESTful design principles, and writing custom middleware functions
- Tech stack:** JavaScript, HTML, CSS, Node.js, Express

### Pomodoro App

- Created an App that is a recreation of the Pomodoro timer used to manage break time and enhance focus
- Developed features including a timer display, settings to set focus/break time, progression bar displays time elapsed, and buttons to control pause, play and stop functions
- Tech stack:** JavaScript, HTML, CSS, React, React Hooks

## Experience

### Human Resources Rep – Behr Paint Company

06/19 – 01/20

Santa Ana, CA

- Managed mission critical project for HR department involving full digital conversion of all employee files
- Audited all team member records retention into SAP to ensure compliance with corporate process and policies
- Coordinated weekly meetings with Special Projects team in order to keep an update on progress status

## Education

### Full Stack Developer

02/21 – 12/21

Thinkful

### Bachelor of Science: Business Administration

08/18 – 12/20

California State University - Long Beach
