Anon Vanichyanukroh

Software Developer

Garden Grove, CA · (714) 340-9500 · Anon Vanichyanukroh · [LinkedIn](#) · [GitHub](#)

SUMMARY

Aspiring junior-level software developer experienced in the PERN stack: PostgreSQL, Express, React, and Node.js. I am constantly gaining knowledge everyday to become a better developer and would like to share and express my knowledge with an inspiring company. My strong background in Human Resources has helped me develop my skills that are transferable such as: problem solving, taking on big projects, and being able to communicate and work well with others.

SKILLS

Front End: HTML, CSS, Javascript, React/React Hooks, Bootstrap
Back End: Node.js, Express, PostgreSQL
Additional Skills: Git, GitHub, Heroku, Vercel, Mocha + Chai, Postman, Data Structures, RESTfulAPI, ElephantSQL, Knex

PROJECTS

Restaurant Reservation | [Project Link](#)
- Created an App that is made for a restaurant to use for taking and keeping track of reservations, along with their tables and past reservations
- Developed features including a dashboard, search by phone number, adding/deleting reservations, adding/deleting tables, assigning customers, and creating availabilities by date
- **Tech stack**: Javascript, HTML, CSS, ElephantSQL, Knex, Node, React, React Hooks, Vercel

Flashcard App | [Project Link](#)
- Designed Flashcard App mimics studying with physical flashcards, but in a digital format
- Built functional buttons to create/add decks or cards as well as buttons to flip the cards to display information of the front or back; decks and cards can also be deleted at the user's discretion
- **Tech stack**: JavaScript, HTML, CSS, React, React Hooks, React Router

GrubDash | [Project Link](#)
- Developed an App that replicates GrubHub by allowing users to see dishes with their descriptions and being able to add them to their cart
- Built APIs with complex validation using middleware packages, receiving requests through routes, using RESTful design principles, and writing custom middleware functions
- **Tech stack**: JavaScript, HTML, CSS, Node.js, Express

PROFESSIONAL EXPERIENCE

Behr Paint Company (Santa Ana, CA)   **Jun 2019—Jan 2020**
Human Resources Representative

- Managed mission critical project for HR department involving full digital conversion of all employee files
- Audited all team member records retention to ensure compliance with corporate process and policies
- Indexed employee files into SAP ensuring the accessibility for other employee members
- Coordinated weekly meetings with Special Projects team in order to keep an update on progress status
